The Ohio opposite this port continued to receds yesterday, but more slowly than on Wednes-day, having declined during the twenty-four hours ending last evering some eight or nine inches leaving, according to the Water-works report, a channel-depth at this point of over nine foot. At Pittsburg the rivep was also falling yesterday, with

five and a half feet of water there at noon. Yesterday was remarkably cool early in the morning, though very clear and bracing, but after the sun rose high chough in the heavens, the tempera-ture was very pleasant, becoming chilly again at night, rendering thick clothes and even over-coats comfortable. In some of our hotels and private dwellings fires have been lighted at the early and late hours of the day, and have been quite attractive to persons of gelid blood.

Business on the Landing was less active yesterday than on Tuesday or Wednesday, but a fair trade was doing, with moderate freight offerings at provi-

THE GREAT EUROPEAN CLAIR VOYANT of the Nineteenth Century and worldnowned Healing Medium of the age, has located in

she convinces the most skeptical of her wonderful supernatural gift to such an astonishing degree that she convinces the most skeptical of her wonderful powers. In short, through the assistance of some superior power, she is endowed with the Healing Art. Madame Hollard is a physician indeed! She cures the following complaints in their most obstinate stages, viz: Diseases of the Throat, Lungs, Heart, Liver, Stomach, Dropsy in the Chest, Sheumatism. Nurnisia, Fits, or Falling Sickness, and all other Nervous Derangements. Also, Diseases of the hieod, such as Scrothia, Erysipelas, Gancors, Fever Sores, Leprosy, and all other complicated Chronic Complaints.

bleed, such as Scrofula, Erysipelas, Cancers, Fever Sores, Legreey, and all other complicated Chronic Complaints.

All forms of female difficulties attended to with the happiest results.

It is hoped no one will despair of a cure until they have given Madame H. s medicine a trial. During her trayels she has been the instrument, in God s lands, of restoring to health and vigor thousands who were on the verge of the grave, and who are now living monuments of her skill and successful treatment, and are daily exclaiming, "Blessed be the day when we first saw and partock of Mad. Hollard's unrivaled medicines."

Satisfactory references will be cheerfully given when required. Madame H. will plodage her reputation and stake her all to make permanent cures in all cases which she undertakes.

Her mode of examination is with a ciairvoyant eye, or second-sight. Sile, therefore, asks no questions, nor does she require invalids to explain symptoms, telling their cause and location with so much satisfaction as to merit and receive the confidence of all who have consulted her.

N. B.—Madame Hollard absolutely advertises nothing but what she has full ability to perform. Persons living at a distance, by giving a statement of their cases, will be attended to promptly, and medicine forwarded by express, when required.

CINCINNATI, May 10, 1860. CINCINNATI, May 10, 1500.

Mu. Sawies: I am happy to have an opportunity to express the entire satisfaction which your excellent Furnaces have given me; they have more than met my expectations.

I have used but little more than half the fuel I supposed they might require. The heat is very picasant and equable—the best I have ever seen in a school building.

The ventilation I esteem invaluable, both for the health and spirits of the pupils. After fiften years experience as a teacher, I must unhestatificly pronounce it the best heating apparatus with which I am acquainted. Very sincerely.

Frincipal Chickering's Academy, George-at.

We, the undersigned, Trustees of Wesley Chapel, hereby certify that Mr. C.B. Sawver has placed in our church two of his Heating and Ventifating Furnaces, and that in our judgment they have great morit as to economy of fuel, the amount of heat generated in a short time, and especially in the quality of the atmosphere secured by the rapid ventilation. We have no heatstain in recommending these Furnaces to the public, as Mr. Sawyer has succeeded in heating so large a church, and almost equalizing the temperature at the ceiling and floor by drawing down the cold and vitaled air and supplying the room with fresh air.
